

LIST OF CONTENTS

NUMBER 1/2

- i Softstrip® computer-readable data strip containing the
table of contents of this issue of *Computers & Electrical
Engineering*
- P. D. Stigall and Saeed Azimi**

P. D. Stigall and Saeed Azimi

Udai Garg and Yo-Ping Huang

Michael Andrews and Foo Lam

K. Y. Srinivasan and A. K. Sood

**Rajiv Sharma and
T. N. Rajashekhar**

1 Optimization of a topologically tree-based local area
network

11 Queuing analyses of a topologically tree-based local area
network

29 Improving the performance of banyan networks

35 Architectural directions for microsequencers

43 Design of highly reliable tree architectures

53 Fault analysis and a unified design of PLAs for easy
testability

I Software Survey Section

NUMBER 3/4

- i Softstrip® computer-readable data strip containing the
table of contents of this issue of *Computers & Electrical
Engineering*
- Bidyut Gupta,
Bhargab B. Bhattacharya and
Gopal C. Basu**

**Sajal K. Das, Vinod K. Agrawal,
Dilip Sarkar and Lalit M. Patnaik**

**Mohamed Mostafa Saied and
Abdullah S. Al-Fuhaid**

**A. K. Sood, S. Akhtar and
K. Y. Srinivasan**

**Balbir S. Dhillon and
Subramanyam N. Rayapati**

**A. B. Ektare and
Maki K. H. Al-Sheakhly**

65 Testable design of two-dimensional cellular logic arrays
for detecting stuck-at and bridging faults

75 Invariant-preserving Petri net reduction and conditions
for invariant-existence

93 A computer relaying algorithm for direct determination of
the fault distance

105 An extended token bus protocol for embedded networks

125 Reliability modelling of redundant computer systems with
common-cause failures

137 Function symmetries and decoded-PLA realization

I Software Survey Section
